

USB Extension Over CAT5

1. Installation Guide

- 1.1 Connect the (Transmitter side) USB Type-A Male connector to the Host Computer
- 1.2 Connect the RJ45 CAT 5 cable (up to 40m) between the Transmitter and the Receiver
- 1.3 Connect the USB Device to the (Receiver side) USB Type A Female connector

2. Troubleshooting

If you are having trouble with the extension:

- 2.1 Try re-plugging each connector
- 2.2 Confirm the two Host Computer's USB ports are functional
- 2.3 Ensure the USB Device is turned 'ON'
- 2.4 Test and confirm the RJ45 CAT5 Patch Cord is functional
